

# JAKKU HARSHAVARDHAN

📞 9959667147 ✉ [jakkuharshavardhan2004@gmail.com](mailto:jakkuharshavardhan2004@gmail.com) [in](#) [Linkedin](#) [Github](#) [Leetcode](#) [Hackerrank](#)

## Education

**SR University | CGPA : 9.47**

**July 2022 – May 2026**

*B.Tech in Computer Science , DSA & SE coursework, Hackathon Secretary; CSI Member*

## Projects

**Fact Finder AI** | Python, NLP, ML

**March 2024 - May 2024**

- Developed a machine learning NLP model for fake news detection with 92% accuracy, using tokenization and vectorization to optimize performance and reduce bias by 15%.

**Calendar using DS & Database Engine** | C, SQLite3

**August 2023 - December 2023**

- Created a C language calendar application using linked lists, managing over 50 events with efficient date navigation.
- Integrated with a database, achieving 100% event persistence for reliable long-term storage and retrieval.

**Student Result Management System** — HTML, CSS, Python, MySQL

**January 2023 - June 2023**

- Engineered a Student Result Management System to automate 500+ student records.
- Improved data accuracy by 95% & reduced processing time by 40% compared to paper-based methods.

## Internships

**AWS Cloud Virtual Internship**

**July 2024 – September 2024**

*AWS Cloud Intern*

*3 months*

- Leveraged AWS services, including S3 for scalable storage and EC2 for web hosting, improving operational efficiency and reducing costs by 30%.

**Triyas Tech Solutions**

**March 2024 – September 2024**

*Full Stack Developer Intern*

*6 months*

- Developed a chatbot with the Groq API to manage 10,000+ messages, improving response accuracy by 25%.
- Enhanced the website using Next.js & Tailwind CSS, boosting page load speed by 30% & user engagement by 25%.

**Intern Pe**

**November 2023 – December 2023**

*Python Intern*

*1 month*

- Engineered three interactive applications using Python's Date and Math modules within four weeks; streamlined development by implementing modular code practices that reduced overall coding time by 20 hours.

## Skills

- Languages:** C, Python, HTML/CSS, JavaScript, MySQL, Oracle, PL/SQL, Java
- Developer Tools:** VS Code, Git, GitHub, Figma, Postman, PowerPoint
- Technologies/Frameworks:** AngularJS, APIs
- Soft Skills:** Commitment, Leadership, Teamwork, Emotional Intelligence, Excellent communication, Effective teamwork, collaboration and willingness to learn

## Achievements

- Ranked in the top 10 for academic GPA and CodeClash organized by the IEEE TEMS, VIT Vellore
- Led a project that demonstrated creativity and collaboration, earning first place at the SRU Idea Conclave.
- Designed and implemented an innovative AI chatbot during the SIH Hackathon Grand Finale, which automated responses for 150+ common customer queries, enabling team members to focus on complex issues.
- Solved numerous coding challenges during a 12-hour hackathon by using algorithms to improve efficiency.

## Certifications

- Introduction to Front-End Development
- Introduction to Back-End Development
- Generative AI with Large Language Models
